

Ref. RA.ISO.25.M3838	Open grating, RA ISO25M3838
----------------------	--------------------------------

Grating made according to ASTM D2583-07 standards; ASTM D790-07e1; ASTM D638-08; ASTM G154-06; ISO 4589-2.

The amount of reinforcement material is 30% to 35% of the total weight.

The standard resin is isophthalic type with fire retardant - IFR 25 resin.

Fire spread degree  $\leq 25$  by ASTM E-84.

All products have UV inhibitor and antioxidant additive

PROPERTIES	VALUES	
H	25,00 mm	
A	38,00 mm	
B	38,00 mm	
C	30,00 mm	
D	30,00 mm	
E	6,30 mm	
F	5,00 mm	
Weight (theoretical)	12,30 Kg/m <sup>2</sup>	
Open surface	68,00 %	

SURFACE TYPE	AVAILABILITY
G - Sand (silice)	Usually in stock
C - Concave	Usually in stock
S - Lisa	By order
