

Ref. RA.ISO50.M1616	Mini-mesh grating, RA ISO50M1616
---------------------	----------------------------------

Grating made according to ASTM D2583-07 standards; ASTM D790-07e1; ASTM D638-08; ASTM G154-06; ISO 4589-2.

The amount of reinforcement material is 30% to 35% of the total weight.

The standard resin is isophthalic type with fire retardant - IFR 25 resin.

Fire spread degree ≤ 25 by ASTM E-84.

All products have UV inhibitor and antioxidant additive

PROPERTIES	VALUES	
H	50,00 mm	
A	32,00 mm	
B	16,00 mm	
C	12,00 mm	
E	6,00 mm	
F	4,00 mm	
Weight (theoretical)	19,20 Kg/m ²	
Open surface	33,50 %	

SURFACE TYPE	AVAILABILITY
G - Sand (silice)	Usually in stock
L - Tear	By order
S - Lisa	By order
